What did I find INTERESTING that I want to learn more about?

What have I found DIFFICULT lately that I should spend some time working on?

What could I do NOW that will make my life easier later?

What SKILL SET do I need to work on?

What FEEDBACK have I been given and what can I do in response?

- Exploring a topic in greater depth or breadth.
- Looking at a topic from a different perspective or angle.

- Feedback in class, on a task or in general?
- Do I need to change my approach?
- Should I re-do a particular piece of work?
- Should I now do extra work on a specific area?
- What additional help do I need to ask for?

- Review work covered.
- Spend extra time on things you find hard.
- Use other resources, e.g. textbooks, study guides.

- Use the RESEARCH cycle – what could you do in advance for an upcoming task?
- Use the REVISION cycle – what could you do in advance for an upcoming task?

- Refer to the Study Skills Handbook website (access via iLearn) for help on topics such as: time management, presentation skills and making study notes.
